99s Long Beach Chapter, Spring 2015
Chapter Report

In the Fall of 2014 several large plexiglass display cases and Chapter memorabilia were donated to the Western Museum of Flight, located at the Torrance Airport, CA. The most unique item is a plaque that contains pieces of fabric from a plane owned by Amelia Earhart. The story of how this display came about was attached. Display tags were created to be attached to items when placed on display to indicate they were donated by the local 99s Chapter.

The Chapter has held fly ins; volunteered at a local school for the Traveling Space Museum for fund raising; joined the Torrance Airport Association meetings to address airport/airspace encroachment issues (led by member Anne O'Brien); discussed future scholarship application requirements; attended the winter section meeting; updated our website, Facebook page and created a new chapter email account (courtesy of member Linda Howard); and added a tech time segment to our regular meetings to mentor and refresh all on aviation topics. At our March meeting the 99s Fly Now International Mentor Program Award was made by Claudette DeCourley to Thao Nguyen for her first solo!

Respectfully,

Laurice Churchill, Chair
99s Long Beach Chapter
