

How To: FAAST/Wings Credit

Maureen Kenney

Ninety-Nines Technology Committee

What is the FAAST Program

- Old – WINGS –
- New – FAAST/Wings
- The WINGS - Pilot Proficiency Program is designed to help each pilot construct an educational curriculum suitable for their unique flight requirements. It encourages pilots to continue their aviation educational pursuits and requires education, review, and flight proficiency in the Areas of Operation found in current Practical Test Standards (PTS), that correspond with the leading accident causal factors.

Program Benefits

- Monetary – lower your insurance cost with Avemco by about 10%!
- The most significant incentive to participating pilots is the added level of safety and professionalism that is obtained through adoption of a consistent recurrent training program.
- Pilots participating in the WINGS - Pilot Proficiency Program to at least the Basic Phase need not accomplish the flight review requirements of 14 CFR part 61, if since the beginning of the 24th calendar month before the month in which that pilot acts as pilot in command, he or she has satisfactorily completed or currently holds the Basic or higher WINGS - Pilot Proficiency Program phase in an aircraft (reference 61.56(e)). .

Program Benefits

- Pilots who participate in the program throughout each year so as to maintain at least the Basic phase will always have a current flight review as the date for your Basic phase and corresponding flight review will move as you continue your safety education by participation in accredited FAASafety activities and courses. All WINGS - Pilot Proficiency Program activity and dates are conveniently tracked on FAASafety.gov.
- FAASafety Industry Members may provide incentives awarding pilots for their participation in the program based on the phase obtained and/or maintained in the program. Check with your local aviation industry organizations, companies, and insurance providers for their current incentive offerings. While the FAASafety encourages FAASafety Industry Members' participation in offering incentives, the FAASafety does not require, regulate, or control such incentives.

FAAST Website

WINGS - Pilot Proficiency Program

To assist in your understanding of the new WINGS – Pilot Proficiency Program, and to help you get started, we have prepared a brief and informative tutorial. Please [click here](#) to view this on-line help tutorial.

Welcome to The WINGS - Pilot Proficiency Program!

The WINGS - Pilot Proficiency Program is designed to help each pilot construct an educational curriculum suitable for their unique flight requirements. It encourages pilots to continue their aviation educational pursuits and requires education, review, and flight proficiency in the Areas of Operation found in current Practical Test Standards (PTS), that correspond with the leading accident causal factors.

Incentives for Participation: Added level of safety and professionalism that is obtained through adoption of a consistent recurrent training program. [more info >>](#)

Who may Participate? All pilots holding a U.S. pilot certificate and a current medical certificate when required may participate in the Basic Phase. [more info >>](#)

How to Get Started

[Click here](#) to set your WINGS - Pilot Proficiency Program airman profile. If you would like further information on this program please contact your local [FAASTeam Representative](#) or [FAASTeam Program Manager](#).

Emails from the FAA

FAASTeam - FAASafety.gov

Runway Safety Tip

Notice Number: NOTC1773

When operating on an airport surface at night or even during daylight when the visibility is restricted, use extra caution. It's harder to taxi safely and the controllers may not be able to see you. Other aircraft and vehicles will have the same problem, so stay extra alert when operating on an airport at night or in reduced visibility.

More information about Runway Safety can be found at http://www.faa.gov/airports_airtraffic/airports/runway_safety/. You can call or email Runway Safety suggestions or comments to Michael Lenz at michael.lenz@faa.gov or 202-267-7949.

You have received this notice from FAASafety.gov because you have selected "General Information" in your preferences on your FAASafety.gov account. [Click here to log in and edit your preferences on FAASafety.gov.](#)

Start FAASTeam CFI Workshops any time! Find Workshop #4 in SPANS.

Begin Registration

- **Registration for FAASafety.gov is free!** When you register here on FAASafety.gov, you will have a system account which you can use to participate in many of FAASafety.gov's online services.
 - After you register, the system will send you a temporary password to the email address you register with. This allows us to confirm your registration. After logging in for the first time, you will be required to change your password to something you can remember.
 - To begin the registration process, **enter your email address below**. Please use an email address that you check frequently and have easy access to.
 - We do not use your email address for purposes outside of FAASafety.gov. For more information regarding the FAA's privacy policy, [click here](#).
 - You may optionally indicate if you are a currently certificated airman. Doing so will allow the FAASafety.gov system to gather your current ratings and certificates and tie them to your FAASafety.gov account for your convenience. This will make participation in the WINGS – Pilot Proficiency Program much easier.
- Don't have an email address?*** If you do not have an email address there are several freely available web based services. [Click here](#) to see a list of free providers.

Enter your Email Address

Register for FAASafety.gov Services

 *Required*

* Email Address

This is the email address that will be used for communications from FAASafety.gov.

* Do You Hold a Current Airman Certificate?

Current for this site means if required to have a medical it is current. You are not required to have an airman certificate to use the services on FAASafety.gov. If your medical is expired please check NO and when asked select the ratings and certificates you hold.

Yes No

Continue

**Be sure that your email address is unique –
NOT one that you share with another pilot in your family!**

Enter your Certification Info

FAASafety.gov Account Registration

To join your FAASafety.gov registration to your airman certificate information, enter your last name and any of your certificate numbers in the fields below. The system will attempt to locate your airman information and create an FAASafety.gov account for you. **If you do not wish to register with your certificate number, you may still proceed with regular registration by [clicking here](#).** FAASafety.gov is fully functional for non-airmen registrations.

Certificated Airman Registration

** Required*

*** Your Last Name**

Your last name as it appears on any of your certificates.

*** Current Certificate Number**

The certificate number matching your last name above.

Example Certificate

01 NATIONALITY USA	SEX M	WEIGHT 75	WEIGHT 230	HAIR BROWN	EYES BROWN
04 D.O.B. 18 AUG 1977					
05 HAS BEEN FOUND TO BE PROPERLY QUALIFIED TO EXERCISE THE PRIVILEGES OF					
06 FLIGHT ENGINEER CAA XXXXXXXXXXXXXXXXXXXXXXXXXXXXXXX					
07 CERTIFICATE NUMBER		XXXXXXXXXXXX			
08 DATE OF ISSUE		18 MAY 2002

Flight Review Date

As you participate in the WINGS program, your flight review date will be updated each time you earn enough credits to complete the Basic phase. However, if you have a more recently earned flight review date, enter it below.

Last Flight Review Date

Type this date as MM/DD/YYYY,
or use the date selector by
clicking on the icon to the right.

Flight Review Effective: 10/02/2008

Flight Review Expires: 10/31/2010

Based on: Airman Provided Information

Old WINGS Program Participation

We want to take this opportunity to acknowledge your participation in the old WINGS Pilot Proficiency Award Program, which expired on December 31, 2007. If you participated, please select the highest Phase you were awarded.

Old WINGS Phase:

Your Airman Information

Request Credit for a Course or Activity

- When you register for a FASST approved seminar or course, you will provide your UNIQUE email address
- When you complete the course, your email address and course status will be relayed to the local FFAST team rep who will assign credit for the course.
- For credit for practical experience (flight training and review) you will receive credit from your CFI.
 - Be sure to ASK your CFI if he or she is registered with the FFAST program, and familiar with registering WINGS credits through the program. If the answer is no, then you may have a harder time getting the credit for the activity.

Request Credit for a Course or Activity
